# MOR 3600
# (Morrissey Hall 3600, GIS Research Computer Lab)

Availability (Weekly)

What is the Weekly Availability view?

The **Weekly Availability View** allows for the comparison of events scheduled in the current location over multiple weeks, grouped by day. It also shows any other restrictions on location availability, such as closing times. An empty time slot means the location is available at that time.

Hover over an event to see a brief summary, or click the event color bar to load full details.

Click an empty slot below to start creating an event in that location at that time.

For more on this Availability view, click here.
